## SUMMARY

Full stack web developer and 4th-year BS Information Technology (Business Analytics) student. Delivered production systems for a local government water utility as sole developer, from requirements gathering through deployment and handover. Builds React and Next.js frontends on Node.js and PHP backends with PostgreSQL and MySQL, with working experience in mobile, on-device ML, and BI reporting.

## EXPERIENCE

### Full Stack Web Developer (Freelance) — Tanauan City Water District 2026 – Present

- Engaged directly by the water district to replace a manual, spreadsheet-and-paper infrastructure project reporting process with a web-based monitoring system.
- Ran requirements gathering with engineering and management stakeholders, then translated their operational workflows into the database schema, role-based access model, and application logic.
- Sole developer across the full stack: Next.js, Prisma, Supabase (Postgres, Auth, Storage), Tailwind and shadcn/ui.
- Owned deployment, client handover, staff onboarding, and post-delivery fixes.

## TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, Python, PHP, Java, C#, SQL
- **Frontend:** React, Next.js, React Native, Flutter, Tailwind CSS, shadcn/ui
- **Backend:** Node.js, Express.js, Prisma, REST API design and integration
- **Databases:** PostgreSQL, MySQL, MongoDB, Supabase, Firebase
- **AI / ML:** TensorFlow Lite, LLM feature integration
- **Data & BI:** Power BI
- **Cloud & Tooling:** AWS, Docker, Git, n8n, Postman, Figma

## PROJECTS

- **Integrated Payroll & Mobile Commercial System** (2026) — Capstone for Tanauan City Water District. Payroll processing module plus a mobile commercial app for customer billing, meter reading, service requests, and announcements. React Native, Node.js/Express, MongoDB, Prisma.
- **TWD Project Monitoring System** (2026) — Client system tracking infrastructure project status, milestones, and progress reporting, with role-based access for engineering staff and management. Next.js, Prisma, Supabase (Postgres/Auth/Storage), Tailwind/shadcn.
- **School Evaluation System** (2026) — Faculty evaluation platform built on React/Vite with Firebase Firestore, Authentication, and Cloud Functions handling scoring and result aggregation.
- **Vehicle Rental System** (2025) — PHP/MySQL rental platform with a booking flow, XML-based inventory records, and an admin dashboard for fleet management and booking approval.
- **Online Thrift Shop** (2025) — Full-stack PHP/MySQL e-commerce platform with a normalized relational schema for listings, accounts, and inventory, and a mobile-responsive Tailwind storefront.
- **Malvar Bat Cave Café System** (2025) — Café management system with product catalog, order handling, inventory control, and multi-role access for admin and staff.

## EDUCATION

### Bachelor of Science in Information Technology, Major in Business Analytics 2023 – 2027 (expected)

Batangas State University – The National Engineering University

- **Relevant coursework:** Advanced Systems Integration and Architecture, Systems Analysis & Design, Data Structures, Database Management, Web Application Development, Business Analytics.

## CERTIFICATIONS

- **Microsoft Power BI Data Analyst** — Microsoft (2025)
- **AWS** — Cloud Computing 101 (AWS Educate), AWS Command Line Interface: Getting Started (2026)
- **Anthropic** — Claude 101, Claude Code in Action, Introduction to Agent Skills (2026)
