Mark Jordan B. Javier

Full Stack Web Developer · BS Information Technology Student

javiermarkjordan@gmail.com · +63 916 716 1667 · linkedin.com/in/mark-jordan-javier · Batangas, Philippines

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer and 3rd-year BS Information Technology student (Business Analytics track) at Batangas State University. Builds production-grade web applications across the full stack — from responsive React/Tailwind frontends to PHP/MySQL backends — with hands-on experience deploying real systems. Holds a Microsoft Power BI Data Analyst certification and has shipped five academic projects covering e-commerce, scheduling, café management, and vehicle rental systems. Actively expanding into Docker, n8n automation, and AI-assisted development.

PROJECTS

Vehicle Rental System — 3rd Year — 2025

PHP · CRUD · XML · MySQL · Chatbot

- Developed a PHP-based vehicle rental web app with full CRUD enabling customers to browse, book, and manage rentals.
- Integrated XML data handling for structured storage and retrieval of vehicle inventory and booking records.
- Built an in-app chatbot to guide users through the booking process, reducing friction for first-time renters.
- Implemented an admin dashboard for fleet management, booking approval, and transaction monitoring.

Malvar Bat Cave Café System — 3rd Year — 2025

PHP · XAMPP · MySQL · CRUD · JavaScript

- Built a full-featured café management system with product catalog, order management, and CRUD-based inventory control.
- Integrated a conversational chatbot to handle customer inquiries and menu browsing, simulating a service assistant.
- Implemented a dark mode UI toggle improving usability and giving the system a polished, modern aesthetic.
- Deployed and tested locally via XAMPP stack with multi-role access for admin and staff users.

Online Thrift Shop — 2nd Year — 2025

PHP · MySQL · HTML · Tailwind CSS · JavaScript

- Designed and built a full-stack e-commerce platform with complete CRUD — users can list, browse, update, and remove thrift items in real time.
- Implemented a relational MySQL schema supporting product listings, user accounts, and inventory management with referential integrity.
- Built a mobile-responsive storefront using Tailwind CSS ensuring consistent experience across device sizes.

Time Scheduling System — 2nd Year — 2024

Java · OOP · MySQL · GitHub

- Built a scheduling management system using Java OOP principles to efficiently manage time slots and streamline operations.
- Designed a MySQL database schema for storing schedules with conflict-prevention logic at the application layer.
- Managed version control and collaboration via GitHub throughout the full development lifecycle.

Personal Portfolio Website — 2025

HTML · CSS · Tailwind CSS · JavaScript

- Built a fully responsive personal portfolio showcasing projects, skills, and certifications through a clean, modern interface.
- Implemented smooth navigation, project card layouts, and tech stack display to communicate professional profile at a glance.

TECHNICAL SKILLS

Languages	JavaScript (ES6+) · PHP · Python · Java · C++ · HTML5 · CSS3
Frontend	React · Tailwind CSS · Responsive Design · Prettier
Backend	PHP (OOP & procedural) · MySQL · CRUD systems · XML data handling
Databases	MySQL · MySQL Workbench · Relational schema design
DevOps & Tools	Docker · XAMPP · Git · GitHub · n8n (workflow automation)
IDEs	VS Code · Cursor · IntelliJ IDEA · PyCharm · NetBeans · Xcode
Design & BI	Figma · Microsoft Power BI

EDUCATION

Bachelor of Science in Information Technology — Major in Business Analytics

Batangas State University – The National Engineering University (BatStateU) · College of Informatics and Computing Sciences (CICS) · 2023 – 2027 (Expected)

- Focus Areas: Software Development, Database Management, Web Application Development, System Analysis & Design
- Key Skills from Coursework: Object-Oriented Programming, Database Design, Full Stack Development, UI/UX Implementation, Business Analytics

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Microsoft Power BI Data Analyst · Microsoft · 2025 *[Professional Certification]*
Completed formal training in data modeling, DAX, Power Query, and dashboard design using Microsoft Power BI. Applied directly to Business Analytics coursework.

Claude Code in Action · Anthropic · March 2026 *[Professional Certification]*
Cert No: ghqee47eduua · Verify: https://verify.skilljar.com/c/ghqee47eduua — Hands-on training in AI-assisted development using Claude Code for agentic coding workflows.

Claude 101 · Anthropic *[Professional Certification]*
Foundational certification covering Claude's capabilities, prompt engineering, and responsible AI application in development workflows.

Databiz Conference 2025 · Batangas Information Technology Society (BITS) *[Conference]*
Theme: "Future-Proof Skills: Empowering Students with Data, AI, and Analytics"

TechTalks S3 · CICS Student Council · 2025 *[Tech Event]*
Industry session on next-generation software development and professional practice.

BITCON 2025 · Batangas Information Technology Society (BITS) *[Conference]*
Theme: "Building a Connected Tomorrow: IoT Innovations and Beyond"

Databiz Conference 2024 · Batangas Information Technology Society (BITS) *[Conference]*
Theme: "Equipping Tomorrow's Innovators with Data Science, AI, and Business Analytics"
